DEMANDS REPAIRS TO MANY STREETS

The members of the East Washington Citizens' Association, at their monthly meeting last night at 314 Pennsylvania avenue southeast, did not hesitate to express themselves on the subject of alleged discrimination on the part of the District officials in the matter of improving certain sections of the city. It was shown in a statement read by Chairman A. G. Brown, of the committee on streets and avenues, that the expenditures of public money for improvement of the county west of North Capitol street and the county east of North Capitol street was about five to one in favor of the county west of North Capitol street.

A resolution was unanimously adopted protesting against this alleged discrimination and a copy of the resolution was ordered sent to the District Commissioners. A resolution calling attention to the bad condition of the streets and avenues, and that Thirtieth street, between Pennsylvania avenue and K street southeast, be macadamized was adopted. This was followed by the unanimous adoption of a resolution asking the improvement of the following streets and avenues: Georgia avenue, from Eighth to Eleventh street; Kentucky avenue, from E street to Pennsylvania avenue; North Carolina avenue, from B to Fifteenth street; Massachusetts avenue, from Lincoln Park to Nineteenth street; Tennessee avenue, from B to Fifteenth street; North Carolina avenue, from A to Sixteenth street. The paving of E street, from Fifteenth to Nineteenth street southeast, and B street, between Eleventh and Thirtieth streets southeast.

Those recommendations are endorsed by all the citizens in the eastern section of the city.

GREW MISS CARROLL'S HAIR
AND WE CAN
PROVE IT

Beautiful Hair At Small Cost.

WITHIN the last decade great and rapid strides have been made in Materia Medica. Many diseases that were considered incurable fifteen years ago are now cured in a few days, and in many cases prevented altogether. The scientists of late years have been delving for the cause, the foundation, the reason and the starting point of disease, fully realizing that the actual and true cause must be ascertained before the remedy can be located. Hair troubles, like many other diseases, have been wrongly diagnosed and altogether misunderstood. The hair itself is not the thing to be treated, for the reason that it is simply a product of the scalp, and wholly dependent upon its action. The scalp is the very soil in which the hair is produced, nurtured and grown, and it alone should receive the attention if results are to be expected. It would be no earthly good to treat the stem of a plant with a view of making it grow and become more beautiful—the soil in which the plant grows must be attended to. Therefore, the scalp in which the hair grows must receive the attention if you are to expect it to grow and become more beautiful.

Loss of hair is caused by the scalp drying up, or losing its supply of moisture or nutriment, and when baldness occurs the scalp has simply lost all of its nourishment, leaving nothing for the hair to feed upon (a plant or even a tree would die under similar conditions).

The natural and logical thing to do in either case is, feed and replenish the soil or scalp as the case may be, and your crop will grow and multiply as nature intended it should.

Dr. Knowlton's DANDERINE

is the only remedy for the hair ever discovered that is identical with the natural hair foods or liquids of the scalp. It feeds and nourishes the hair and does all the work originally carried on by the natural nutrients or life-giving juices generated by the scalp itself. It penetrates the pores of the scalp quickly and the hair soon shows the effects of its wonderfully exhilarating and life-producing qualities.

One twenty-five-cent bottle is enough to convince you of its great worth as a hair growing and hair beautifying remedy—try it and see for yourself. Now on sale at every drug and toilet store in the land. Three sizes, 25c, 50c and \$1.00.

FREE To show how quickly DANDERINE acts we will send a large sample free by return mail to anyone who sends this advertisement to the KNOWLTON DANDERINE CO., Chicago, with their name and address and 10 cents in silver or stamps to pay postage.

LUMBER TRUST MOST DISLIKED

Bureau of Corporations Preparing for Drastic Inquiry Into Its Methods.

Claim Made That It Is Most Favored by Tariff Except the Sugar Combine.

What is the most hated trust? Beef trust? No. Steel trust? No. Standard Oil? No. Lumber trust? Yes, by about a million majorities.

The proof is that everybody wants to tell on it. The Bureau of Corporations is doing the preliminary work looking to a drastic inquiry into the whole lumber business. If there is a lumber trust it is going to be dragged out of the woodpile and exposed.

From the time of the passage of the Congressional resolution ordering an inquiry, and indeed before that time, information has been coming to the bureau from all kinds of people in all parts of the country about the methods of conducting this business.

The price lists made and enforced by all the different kinds of associations—wholesalers, manufacturers and retailers—have been furnished. Evidence concerning the friendly relations of the railroads with certain lumber interests is in hand. Rates and price lists are being subjected to careful scrutiny.

Officials Are Reticent. Officials of the bureau are reticent when asked what the inquiry has developed thus far. They decline to tell whether they find the concealment of prices exactly alike in sections many hundreds of miles apart, some of them immediately within the lumber districts and others a thousand miles away. But it is understood that this feature is getting much attention, and that the price of the whole country, where that supreme intelligence is, and whether it can be dealt with under the Sherman law are the questions requiring answers.

There is one aspect of this lumber inquiry which thus far has had no attention at the hands of the investigators, but which will come in for plenty before they are done. This is the relation of the tariff to the lumber business. The Congressional resolution directs especially an exposition of the relations of the tariff to the trust and the condition of lumber prices in this country.

Greatest Tariff Beneficiary. The lumber combination is widely believed to be the greatest single beneficiary of the tariff except perhaps the Sugar trust. But there is the special argument against the lumber tariff, which will receive investigation, that by barring out Canadian lumber the deforestation of this country is being forced at the same time that the people are being compelled to pay excessive prices for lumber.

The lumber inquiry is going to be one of the largest tasks the Bureau of Corporations has ever undertaken, and it will require a long time. Nothing more than a preliminary report is likely to be given to Congress at the next session, but this much will probably be called for by Congress and supplied.
